## **ECOSENSE® AWARDED PRESTIGIOUS 2015 LIGHTFAIR INNOVATION AWARD FOR TROV AS BEST IN CATEGORY**

***TROV™ LED platform selected as the most ground-breaking  
product of the year in the Cove Lighting Category***

**Los Angeles, CA, May 15, 2015** — EcoSense, a fast-growing manufacturer of high-performance LED lighting technologies, announced today that the new TROV platform was recognized as the BEST IN CATEGORY for Dynamic Color, Theatrical, Cove and Strip Lighting at the LIGHTFAIR Innovation Awards®.

Judged by an independent panel of renowned lighting professionals, the LIGHTFAIR Innovation Awards recognize excellence in new lighting products and technologies introduced in the past twelve months. As the industry's highest honor, the LIGHTFAIR Innovation Awards illustrate the potential of LED technology.

"We are extremely honored to be chosen for this distinguished award by leading industry professionals," said Mark Reynoso, CEO of EcoSense. TROV reflects our vision to push the boundaries of technology and design. It has been a lot of work and we couldn't be more proud."

Available in over 20,000 different product configurations, TROV is the industry's only linear platform designed entirely from the ground-up. This product platform includes completely original designs for the board, power supply, optics, housing and connectors.

TROV was conceived and developed for lighting designers and each attribute was meticulously engineered to incorporate market leading functionality while pushing the boundaries of beautiful design. TROV is a one-of-a-kind LED lighting platform for architectural, retail, hospitality and commercial spaces that allows for unparalleled freedom in lighting design. The product platform is intelligently designed with a patented optical system that delivers the largest assortment of beam angles available today including the highly sought-after Asymmetric distributions. TROV also features smooth, flicker-free dimming down to 0% output along with the uniquely new Flip to Flat™ design for ultimate adjustability.
